Connected language support

INTERPRETER AND TRANSLATION REQUESTS

Language Support, Connected

Bring school staff, district coordinators and interpreters into one clear workflow. Capture language needs, coordinate assignments and follow service progress from request to completion.

A clear next step for every team

School staff

Capture needs, save drafts and track personal requests.

Coordinators

Review unassigned work and arrange interpreter support.

Interpreters

Respond to assignments and record service completion.

TRANSLATOR APP

From request to completion

MAKE EVERY REQUEST EASIER TO MANAGE

Clear Handoffs. Visible Progress.

Capture the details staff need

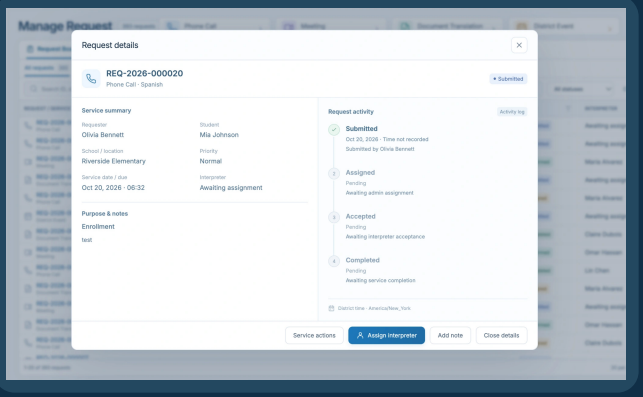

Choose the service type, language, student or school, date and supporting details in a guided form. Save a draft and finish without starting again.

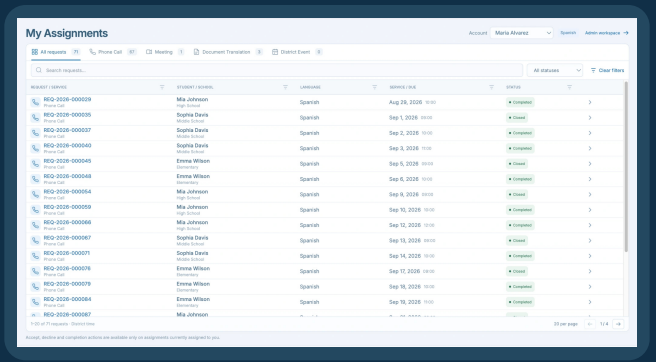

Help reduce missing details before scheduling.

Coordinate the right support

Find unassigned work through service tabs, search and filters. Keep interpreter assignment and service activity together for review and follow-up.

Make assignment ownership easier to follow.

Keep interpreters focused

Interpreters review their own work, respond to new assignments and record completion details. A shared status keeps the next action visible.

Keep assignment-to-completion handoffs clear.

Visibility for school and district teams

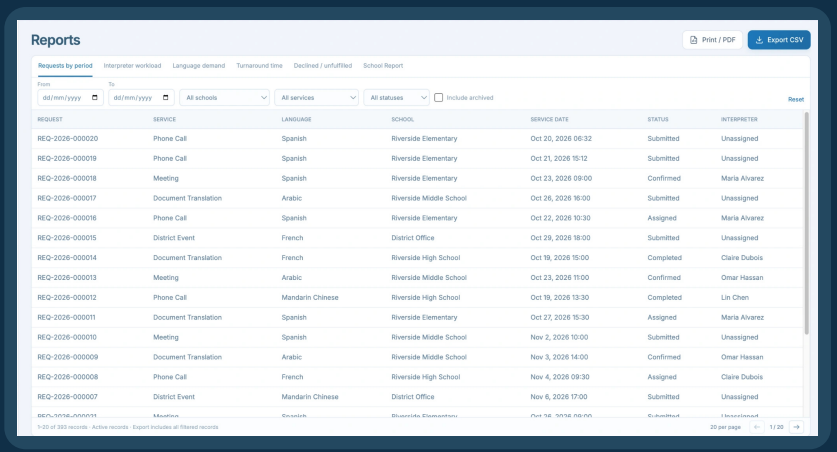

SERVICE HISTORY THAT SUPPORTS ACTION

Stay Informed. Plan with Context.

Give requesters answers

Find requests by type and status. Edit or cancel before assignment; send changes for Admin review afterward.

Review district service demand

Review status, languages, service types and recorded turnaround time. Use filters and CSV exports for planning.

Maintain interpreter readiness

Manage users, interpreter roles, mapped languages and service types in one place. Keep language coverage visible to coordinators when arranging support across schools.

AI assistance with expert review

AI-DRIVEN DOCUMENT TRANSLATION

From Source to Reviewed Translation

Prepare an AI-assisted first draft in the requested language. Interpreters compare the source and translation side by side, refine wording and record their review before service completion.

Prepare a first draft

Support letters, invitations and school information in the family's preferred language.

Keep expert review

Compare meaning, refine wording and confirm interpreter review in one workspace.

Track the service

Link documents to the requester, interpreter, due date and completion record.

Make language support easier to coordinate.
